529H09155	PIPPEN
529H09568	REVENUE
529H09899	TOUCHDOWN
529H010124	BOLIVER
529H010340	BRAD
529H010644	GARRISON
529H010799	MEGATON
529H010932	NILES
529H011012	CASHMERE
529H011014	DEE
529H011089	COLEMAN
529JE3241	LELAND
529JE3301	IATOLA
529JE3325	PARATROOPER

Recognize these differences in semen sorted for gender:

- Calves resulting from *Sorted Female Semen*, on average, will be 85% - 90% female
- A decrease of 10% - 20% in conception rate points
- Semen is packaged in 1/4 ml straws - please consult your ABS Representative if you have not handled 1/4 ml straws
- Use on well-grown virgin heifers only; not recommended for use on cows
- Insemination only after observed heats using the AM/PM rule

Control replacement costs, increase heifers from within your herd and reduce disease risk. ABS now offers *Sorted Female Semen* to allow you to "GROW from Within."

Visit with your local ABS Representative to learn more about achieving a higher percentage of heifers and "GROW from Within".

ABS Sorted Semen is not eligible for Cornerstone semen discount benefits. Look for more Sorted Semen Sires from ABS in the future!
